

```
onClickListener"calculated"@"a" ]@"a"}/  
button  
</div>
```

JavaScript

```
function calculate(value) {  
    var result =  
    document.getElementById("result")  
};  
if (value == "a") {  
    result.value =  
    eval(result.value);  
}  
else {  
    result.value = value;  
}  
}
```

```
function clearAll() {  
    var result =  
    document.getElementById("result")  
};  
    result.value =;
```

```
function backspace() {  
    var result =  
    document.getElementById("result")  
}
```
